## **DETAILED ACTION**

This Office action is responsive to communication received 06/21/2004 – Amendment and Terminal Disclaimer.

Claims 1-3 remain pending.

Following is an action on the MERITS:

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 and 3 STAND rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12 of U.S. Patent No. 6,669,578 in view of Peterson, as set forth in the last Office action, mailed 06/15/2004.

Claim 2 STANDS rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12 of U.S. Patent No. 6,669,578 in view of Peterson and Antonious, as set forth in the last Office action, mailed 06/15/2004.

Application/Control Number: 10/748,387

Art Unit: 3711

Claims 1 and 3 STAND rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-13 of U.S. Patent No. 6,648,773 in view of Peterson, as set forth in the last Office action, mailed 06/15/2004.

Claim 2 STANDS rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-13 of U.S. Patent No. 6,648,773 in view of Peterson and Antonious, as set forth in the last Office action, mailed 06/15/2004.

The terminal disclaimer filed 06/15/2004 is improper for the following reason(s);

It would appear that only one terminal disclaimer has been received, when in fact the last Office action includes a rejection of the claims based on obviousness-type double patenting and referring to two separate prior patents. Further, the single disclaimer received incorrectly identifies the prior patent as U.S. Patent 6,659,578. The correct U.S. Patent is 6,669,578. The second prior Patent upon which a double patenting rejection was made in the last Office action is U.S. Patent 6,648,773. Applicant is respectfully encouraged to review the contents of the last Office action prior to submitting any corrected terminal disclaimer.

It should be noted that applicant is <u>not</u> required to pay another disclaimer fee as set forth in 37 CFR 1.20(d) when submitting a replacement or supplemental terminal disclaimer.

Enclosed with this Office action is a sample Statement under 37 CFR 3.73(b) which an <u>assignee</u> may use in order to ensure compliance with the Rule. Part A of the Statement is used when there is a single assignment from the inventor(s). Part B of the Statement is used when there is a chain of title. The "Copies of assignments..." box

Application/Control Number: 10/748,387

Art Unit: 3711

should be checked when the assignment document(s) (set forth in part A or part B) is/are not recorded in the Office, and a copy of the assignment document(s) is/are attached. When the "Copies of assignments..." box is checked, either the part A box or the part B box, as appropriate, must be checked, and the "Reel\_\_\_\_\_, Frame\_\_\_\_\_" entries should be left blank. If the part B box is checked, and copies of assignments are not included, the "From:\_\_\_\_\_ To:\_\_\_\_\_" blank(s) must be filled in. This statement should be used the first time an assignee seeks to take action in an application under 37 CFR 3.73(b).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
